A water wheel is a machine for converting the energy of flowing or falling water into useful forms of power, often in a watermill. A water wheel consists of a wheel (usually constructed from wood or metal), with a number of blades or buckets arranged on the outside rim forming the driving surface.. Water wheels were still in commercial use well into the 20th century but they are no longer in ...

Covers reading and understanding financial statements, internal control requirements for safeguarding assets, and accounting procedures necessary to complete the entire accounting cycle, including journals, ledgers, and financial statements.

Course Descriptions | Reynolds Community College

come on like gangbusters To burst upon the scene with noisy exuberance; to come on with great power or force; to be officious or overbearing at first meeting. This expression derives from the blaring sound effects that opened a 1936 radio program called Gangbusters. These included the sounds of marching feet, machine-gun fire, and a screaming siren.
