A database is an organized collection of data, generally stored and accessed electronically from a computer system. Where databases are more complex they are often developed using formal design and modeling techniques. The database management system (DBMS) is the software that interacts with end users, applications, and the database itself to capture and analyze the data.

Major depressive disorder (MDD), also known simply as depression, is a mental disorder characterized by at least two weeks of low mood that is present across most situations. It is often accompanied by low self-esteem, loss of interest in normally enjoyable activities, low energy, and pain without a clear cause. People may also occasionally have false beliefs or see or hear things that others ...

This is a discussion of the corporate welfare programs which allow billionaires to avoid taxes and acquire huge subsidies to build sports stadiums. Every year, millions of taxpayer dollars are poured into stadiums, hockey rinks, baseball parks, and other arenas in order to attract and retain professional sports teams in big cities, but these facilities benefit only the team owners, not the ...
