A copper-water closed flat Pulsating Heat Pipe (PHP), 3.4 m long and of inner diameter 4 mm, was
manufactured and tested. This PHP aims both at homogenising the temperature of a large
aluminium plate, of surface area $150 \times 420 \text{ mm}^2$, and at lowering its mean temperature by
transferring the heat to an adjacent heat sink of same dimensions.

A union wage premium refers to the degree in which union wages exceed non-union member
wages. Union wage premiums are one of the most researched and analyzed issues in economics
especially in labor economics. Unions and their struggle for wages and better benefits usually
target larger firms that have a concentrated industry. Unions have an effect on wages, the
probability of gaining benefits ...

Union wage premium - Wikipedia

Indian Army is considering a plan of cutting about 20 percent of its manpower in all departments at
its central headquarters in Delhi. The idea is to have more officers and jawans available for field
formations. The move aimed at enhancing the army's combat capabilities and turn it into a better
...

Army wants more on field, plans to reduce headquarters ...

The atmosphere of Jupiter is the largest planetary atmosphere in the Solar System. It is mostly made
of molecular hydrogen and helium in roughly solar proportions; other chemical compounds are
present only in small amounts and include methane, ammonia, hydrogen sulfide and
water. Although water is thought to reside deep in the atmosphere, its directly measured
concentration is very low.

Atmosphere of Jupiter - Wikipedia

Water and food security are the key challenges under climate change as both are highly vulnerable
to continuously changing climatic patterns. Studies have predicted that the average global
temperature may increase by 1.4–5.8 °C and there would be substantial reduction in fresh water
resources and agricultural yield by the end of the 21st century.

Climate change and challenges of water and food security ...

Outstanding research and analysis underpins everything we do, from policymaking to providing
secure banknotes. The Bank aims to attract and develop world-class researchers and foster an
environment that supports creative freedom and engagement with global research communities.
