Synopsis: Answers creation questions from both believers and skeptics. Summary: Hidden Treasures in the Book of Job by Dr. Hugh Ross is a great addition to the Bible teaching that is missing from most Christian's Bible study. Although seldom read by Christians, the book of Job offers answers to many questions about the creation and how God designed the universe and prepared the earth for humanity.

Earth is the third planet from the Sun, and the only astronomical object known to harbor life. According to radiometric dating and other sources of evidence, Earth formed over 4.5 billion years ago. Earth's gravity interacts with other objects in space, especially the Sun and the Moon, Earth's only natural satellite. Earth orbits around the Sun in 365.26 days, a period known as an Earth year.

Book Review: Why the Universe Is the Way It Is by Hugh Ross by Rich Deem. Introduction. In a slight departure from their usual books on a testable creation model, Hugh Ross (Reasons To Believe) takes on the big "why" questions about the universe and why God created in the way He did. This book represents a continuation of Creation As Science with more emphasis on how biblical theology fits with ...

Young Earth creationists have claimed that their view has its earliest roots in ancient Judaism, citing, for example, the commentary on Genesis by Ibn Ezra (c. 1089–1164). Shai Cherry of Vanderbilt University notes that modern Jewish theologians have generally rejected such literal interpretations of the written text, and that even Jewish commentators who oppose some aspects of science ...

Parents need to know that Bill Nye: Science Guy is a documentary about the star of the beloved 1990s kids' show Bill Nye the Science Guy and his attempts to "leave the world better than he found it" after the show has run its course. The movie isn't specifically aimed at kids, but there's very little iffy content. Aside from some self-reflection that could be a little bit boring for younger ...
