Is it "Healthcare" or Disease Care?. True "healthcare" would be the care of the very basic unit of life, which as we know is the human cell. This comprehensive care would begin in our very early years, conceivably from conception, involving a system focused on the healthy maintenance of the cells and thus, the non-interference of cellular function, and subsequently unaltered DNA ...

2. Emotions Are Attention Magnets. We associate emotions with System 1 because they're typically automatic responses that operate outside of voluntary control, but it's inaccurate to think of System 1 as "emotional" and System 2 as "logical"; feelings and cognitions are involved in both forms of mental processing.
