PDF | Children in early ages around 5 to 9 years old usually have a low medium capability in reading. They might not be able to read masterly and often misunderstood or missed the intended answer.

Smiley Faces: Scales Measurement for Children Assessment

1 Definition. Constructivism is first of all a theory of learning based on the idea that knowledge is constructed by the knower based on mental activity. Learners are considered to be active organisms seeking meaning. Constructivism is founded on the premise that, by reflecting on our experiences, we construct our own understanding of the world consciously we live in.

Constructivism - EduTech Wiki

1 Introduction. Educational technology, sometimes shortened to EduTech or EdTech, is a wide field. Therefore, one can find many definitions, some of which are conflicting. Educational technology as an academic field can be considered either as a design science or as a collection of different research interests addressing fundamental issues of learning, teaching and social organization.
