While William Shakespeare's reputation is based primarily on his plays, he became famous first as a poet. With the partial exception of the Sonnets (1609), quarried since the early 19th century for autobiographical secrets allegedly encoded in them, the nondramatic writings have traditionally been pushed to the margins of the Shakespeare industry.

The glossary that follows assumes a definition of ecology--the study of interactions between organisms and their environment--much wider than what fits under the field's habitual statistical persona. Ecofeminism and ecopsychology are mentioned, for example, as are terms from organic gardening and permaculture.

Reader's Comments () Author's Note: My first story, hope you like it. Not quite sure which tags would be best. Update (2012/02/11): Looks like I definitely bit off quite a lot of plot. Thanks to those who have stuck with it. I think if I cut back on the storyline, I'll wreck things so sorry to those with

feedback about length.
