The first protein of the toll receptor family was discovered in the context of insect development but was later shown to play an additional role in protecting insects against fungal infections (36, 37, 38). Subsequently, more than ten Toll-like receptor protein homologues were discovered in the mouse and human genomes (12, 13, 39). Although the functions of the TLR proteins are incompletely ...

Interstellar travel is the term used for crewed or uncrewed travel between stars or planetary systems. Interstellar travel will be much more difficult than interplanetary spaceflight; the distances between the planets in the Solar System are less than 30 astronomical units (AU)—whereas the distances between stars are typically hundreds of thousands of AU, and usually expressed in light-years.

Interstellar travel - Wikipedia
