Create Windows 7 Answer File

In the same vein as Quickly create a large file on a Linux system, I'd like to quickly create a large file on a Windows system. By large I'm thinking 5 GB. The content doesn't matter. A built-in command or short batch file would be preferable, but I'll accept an application if there are no other easy ways.

Quickly create large file on a Windows system - Stack Overflow

@gargamel your answers aren't quite right. 1. This is right 2. Symbolic link, this is just a "virtual" file or directory. From the view of the user it creates what appears to be another file, but this is just referencing the hard location under the hood in the file system. e.g.
