A natural building involves a range of building systems and materials that place major emphasis on sustainability. Ways of achieving sustainability through natural building focus on durability and the use of minimally processed, plentiful or renewable resources, as well as those that, while recycled or salvaged, produce healthy living environments and maintain indoor air quality.

Research shows that around a quarter of all shots are played using a wedge so clearly they are a vital part of every golfer's game. They can create birdies or save pars, but can also cause problems for golfers who struggle around the greens if they are not using the right type of wedge for the shot.
