Please post any comments, questions or concerns related to taking the Patent Bar exam at the Prometric testing center below. Beginning on July 26, 2004, the Patent Bar Exam moved to a computer-based format. The Patent Office has offers yearly written administration of the examination in Washington, DC, normally during the month of July.

Prometric Patent Bar

Hyponatremia is defined as a serum sodium level of less than 135 mEq/L and is considered severe when the serum level is below 125 mEq/L. Many medical illnesses, such as congestive heart failure, liver failure, renal failure, or pneumonia, may be associated with hyponatremia.

Hyponatremia Treatment & Management: Approach ...

Here is a huge problem for origin-of-life scenarios: when amino acids are joined together, for example, a water molecule is released. This means that in the presence of water, the reaction is pushed in the wrong direction, backwards; that is, proteins will fall apart, not build, unless the water is actively removed.
