For Wave optics, I read it from the NCERT textbook line by line and to tell you, YDSE(Young's Double Slit Experiment) is the most important thing in this chapter. If you had only one day in hand for it, YDSE, Huygens law and Brewster's angle would be the only thing you would need to do from this chapter. With this, Communication systems and Electronic Devices (Semiconductors) were only left.

Causality (also referred to as causation, or cause and effect) is efficacy, by which one process or state, a cause, contributes to the production of another process or state, an effect, where the cause is partly responsible for the effect, and the effect is partly dependent on the cause. In general, a process has many causes, which are also said to be causal factors for it, and all lie in its ...
