Global Trade Analysis Project (GTAP) The Global Trade Analysis Project (GTAP) is a global network of researchers and policy makers conducting quantitative analysis of international policy issues. GTAP is coordinated by the Center for Global Trade Analysis in Purdue University's Department of Agricultural Economics.

Global Trade Analysis Project (GTAP)

As you can see, the same situation can be described quite differently by various computations of price level, where quantities and prices are both involved.. With more than two goods, things even get more complicated, not to mention what happens when one should consider the evolution of the quality level over time, as you can see in this free software.

Price level: a key concept in Economics

The US state was founded upon the dispossession and virtual extermination of indigenous people. Until the end of the Civil War in 1865, enslavement of black Africans on southern plantations was another import element, alongside the seizure of territory from Mexico.

Economics of Imperialism

Metaphilosophy (sometimes called philosophy of philosophy) is "the investigation of the nature of philosophy". Its subject matter includes the aims of philosophy, the boundaries of philosophy, and its methods. Thus, while philosophy characteristically inquires into the nature of being, the reality of objects, the possibility of knowledge, the nature of truth, and so on, metaphilosophy is the ...
