Part B-1 Answer all questions in this part. Directions (36-50): For each statement or question, write on your separate answer sheet the number of the word or expression that, of those given, best completes the statement or answers the question. Some questions may require the use of the Earth Science Reference Tables.

Sequence of Events Lab COMPLETE - Hanging On To My Dreams

1.4 Earth System Science Earth system science aims to understand Earth as a system made up of interacting parts, or subsystems. A system can be any size group of interacting parts that form a complex whole. • In a closed system, matter does not enter or leave the system. • In an open system, energy and matter flow into and out of the system.

Chapter 1 Introduction to Earth Science

In Lab 5, students learned about some of the global circulation processes that transport both matter and energy around the planet. In Part A they get a much more specific picture of the Earth system at the global scale as they investigate data collected by NASA satellites.
