I was wondering how to use command to set up displaying with n decimal places in Matlab? Must n be restricted to some predetermined numbers? Or one can just specify any for n? Thanks and regards!

number formatting - How to display with n decimal places ...

A repeating decimal, also called a recurring decimal, is a number whose decimal representation eventually becomes periodic (i.e., the same sequence of digits repeats indefinitely). The repeating portion of a decimal expansion is conventionally denoted with a vinculum so, for example, $1/3 = 0.333333... = 0.3\overline{3}$. The minimum number of digits that repeats in such a number is known as the decimal period.
