How To Make An Unattend.xml Sysprep File - bohack.com

Could you provide a minimal unattend.xml file for use in Windows 7, which will be manually installed, updated and configured on one workstation, then SysPrep will be run like this:
C:\Windows\Syst...

What is a minimal useful unattend.xml file for SysPrep on ...

History. Sysprep was originally introduced for use with Windows NT 4.0. Later versions introduced for Windows 2000 and Windows XP are available for download from Microsoft and included in the Windows CD. Windows Vista is the first version of Windows NT to include a version of Sysprep that was independent of the hardware abstraction layer (HAL), in the "out of box" installation.

Sysprep - Wikipedia

@WesSayed I'm confused by your comment. Those questions I asked were rhetorical. My only point was that if you are making changes to an image by hand you're going to have to reimplement those same changes in some other automated way to get those same changes out to deployed machines. And that same automation can be used on freshly-deployed machines anyway.

Capture Win7 Image- SCCM vs Sysprep & imageX - Super User

Hello, how do I create an unattend file for windows 10 education. Is there a sample or default one somewhere? I have done windows 7 sysprep process before and have been working fine. can I use the unattended file that I use for windows 7 on windows 10?

Windows 7 Image - Customize in Audit Mode with Sysprep ...

2.3) Start Windows SIM (see 1.4). To create an answer file, Windows SIM needs a so called catalog file which will be based on install.wim file for a specific edition of Windows 10 2.4) In Windows SIM, select File > New Answer File. You will be asked if you want to open a Windows image.

Create media for automated unattended install of Windows ...

I was going sysprep a base image of Windows Server 2008 this morning and followed my own instructions on sysprepping Windows. I went to the installation DVD and couldn't find sysprep. A quick google later and a bit of poking around revealed that sysprep is now installed by default on Windows Server 2008.

How to Sysprep Windows Server 2008 - James Kovacs' Weblog

I am using sysprep and Windows Capture (part of WDS) to create a windows 7 image. Sysprep and the wizard run fine as I enter the appropriate data. However, at the start of the image creation I get an

sysprep - Windows Deployment System- the system cannot ...

Windows Answer File Generator (WAFG) is a simple website that provides similar functions to Windows System Image Manager (SIM).. Windows System Image Manager is the tool used to create

an unattended Windows Setup answer file.

Windows Answer File Generator

I was under the impression that joining a Windows PC to a domain took care of creating a unique SID. When we started up our company, I cloned roughly 40 PCs with the same non-sysprep OEM image, changed the Product key to one of the other 39 OEM disks I had purchased, and then joined them to the domain.
