The scientific theory of evolution by natural selection was proposed by Charles Darwin and Alfred Russel Wallace in the mid-19th century and was set out in detail in Darwin's book On the Origin of Species (1859). Evolution by natural selection was first demonstrated by the observation that more offspring are often produced than can possibly ...

### **Evolution - Wikipedia**

The theory has accurately predicted dozens of results which have been replicated over and over. Unlike faith, which takes an idea and sticks with it regardless of the evidence, science discards ideas when evidence goes against them. Evolution has not been discarded because it can not be disproven by intelligent, educated, open minded people.
