The age of the earth has been a topic of debate among Christians over the last two centuries. Several Christian ministries promote the idea that the earth is less than 10,000 years old, which they say comes from the Bible. In reality, the Bible makes no claim as to the age of the earth, although it ...

Miller: No, I certainly don't think they do. I think the whole tradition of Western science is that science and religion are not mutually exclusive. There are many people in the scientific community, in the United States and around the world, who hold strong religious points of view and do not see their points of view conflicting with working in science or even with the philosophy of science.

Experimental Procedure. Note: There are two different ways to do the experiment. In one method, you will attach your phone to the end of a string and use Google's Science Journal app to create a graph of its motion as it swings, then measure the pendulum's period based on the graph. In the other, you will tie washers to the end of a string to form a pendulum and use a stopwatch to measure its ...
