What you have looks like table inheritance. If your table structure is that all flat records represent a single property but not all property records refer to a flat, then that's table inheritance. It's a way of modeling something close to object-oriented relationships (in other words, flat inherits from property) in a relational database.

Motion sickness or sea sickness, car sickness, air or train sickness is a feeling of unwellness caused by movement and its relationship to the inner ear and balance. Treatments include home remedies and OTC or prescription medications.

**Motion Sickness Meaning, Symptoms, Remedies & Treatment**

When all the forces that act upon an object are balanced, then the object is said to be in a state of

equilibrium. The forces are considered to be balanced if the rightward forces are balanced by the leftward forces and the upward forces are balanced by the downward forces. This however does not necessarily mean that all the forces are equal to each other.
