The mayans (among many other ancient and modern cultures) predicted a date in late December, 2012 as the end of their calendar and the end of days and the earth itself. Many people believe this prediction as valid, and live their lives accordingly. This could mean "living it up" everyday because time is short, or buckling down and remaining absolutely true to one's religion.

Of course science doesn't know anything for absolute fact and they will admit to that. But they do say that the belief of how the world will end is by the magnetic poles being effected drastic ally and all at once. Science says they have proof that it cannot happen all at once as they have found out in places where there was a drastic magnetic field change but took over a million years to take ...
