1. The bus is travelling to the right, if you are from the UK where cars drive on the left-hand side. In the US the bus would be travelling to the left, where cars drive on the right-hand side. 2.

Test yourself on these 15 noodle-scratching conundrums ...

Riddles are of two types: enigmas, which are problems generally expressed in metaphorical or

allegorical language that require ingenuity and careful thinking for their solution, and conundrums, which are questions relying for their effects on punning in either the question or the answer."

What are some examples of *real* conundrums? - linguistics ...

One should never interpret inability to get the answers to riddles as a lack of intelligence, especially in kids. These are 'teasers' and a fun activity, and should remain so. The very fact, that one is interested in solving a puzzle or getting to the crux of the problem, is enough proof that he is willing to challenge his brain.

Brain Stuff: The Art of Solving Riddles or Conundrums

Conundrums are similar to enigmas, except that the answer lies hidden in the question itself. The application of the concept of punning can bring out the real answer hidden within the question. The usage of different meanings for the same word in the question with a common spelling too, can extract the hidden truth. Types of Math Puzzles

Math Riddles and Puzzles - Plentifun

There are two types of riddles, enigmas and conundrums. An enigma is a problem in which the solution is expressed metaphorically. You have to carefully think about the riddle to come up with the solution. A conundrum is a question that opens either the question or the answer. A riddle, however, doesn't need to be classified as one of these types.
