A developing country (or a low and middle income country (LMIC), less developed country, less economically developed country (LEDC), or underdeveloped country) is a country with a less developed industrial base and a low Human Development Index (HDI) relative to other countries. However, this definition is not universally agreed upon. There is also no clear agreement on which countries fit ...

Tip: Contingency planning is one response to risk. But in some cases it may be safer or more cost-effective to tackle it in other ways: to avoid the risk, by investing in new equipment, for example; or to share the risk, by purchasing an insurance policy. Or you may choose not to formally plan for some lower-priority risks at all, but to manage them if they do happen.

The ability to think critically is a key skill for academic success. It means not taking what you hear or read at face value, but using your critical faculties to weigh up the evidence, and considering the implications and conclusions of what the writer is saying.

### **Developing critical thinking - Emerald Group Publishing**

Benjamin Samuel Bloom (February 21, 1913 – September 13, 1999) was an American educational psychologist who made contributions to the classification of educational objectives and to the theory of mastery learning. He is particularly noted for leading educational psychologists to develop the comprehensive system of describing and assessing educational outcomes in the mid-1950s.

A Definition of the Resilient Person. There is an evolving definition when it comes to resilience. According to the American Psychological Association resilience is defined as the process of adapting well in the face of trauma or tragedy, threats or other significant sources of stress (Southwick et al., 2014) When it comes down to it, the concept of resilience is a complex one.
