Science curriculum doesn't have to be expensive. A good portion of what we've used for science over the years has been free resources! I remember science being incredibly dry and boring in school and I want my children's science experience to be anything but boring. Because of that, I seek out resources that offer learning through living books and lots and lots of experiments.

Inquiry-based learning (also enquiry-based learning in British English) is a form of active learning that starts by posing questions, problems or scenarios. It contrasts with traditional education, which generally relies on the teacher presenting facts and his or her knowledge about the subject. Inquiry-based Learning is often assisted by a facilitator rather than a lecturer.
