Very clumsy and confusing website. Font size is small, helpful info lacks every where, and creates more confusions than help for a person like me who is visiting the website for the very first time.

TIFR GS Application Form 2019 - Winentrance

So the change in population is 9,000. The percentage of population loss is just the change in population divided by the original population. Turn 0.134 into a percent so that we get 13.4%. So the percent of population loss is 13.4%. To find the percent decrease, we need to calculate the difference ...

How to find the percent of decrease - Algebra 1
