Glencoe Physical Science vii Organize each wave characteristic in the Venn diagram to show whether it is a trait of tides, waves created by wind, or both. Model spring and neap tides in the boxes below. •Use the figure in your book to help you.

Glencoe Physical Science

Student groups rotate through four stations to examine light energy behavior: refraction,

magnification, prisms and polarization. They see how a beam of light is refracted (bent) through various transparent mediums. While learning how a magnifying glass works, students see how the orientation of an image changes with the distance of the lens from its focal point.
