FISHERIES - University of Washington

Kelp forests occur worldwide throughout temperate and polar coastal oceans. In 2007, kelp forests were also discovered in tropical waters near Ecuador.. Physically formed by brown macroalgae, kelp forests provide a unique, three-dimensional habitat for marine organisms and are a source for understanding many ecological processes. Over the last century, they have been the focus of extensive ...

1. Introduction. Research on ecosystem services (ES), the contribution of ecosystems to human wellbeing (), is often claimed to inform policy and decisions in various contexts such as biodiversity conservation, natural resource management, and spatial planning (Daily et al., 2009, Laurans and Mermet, 2014, Martinez-Harms et al., 2015). Decision makers are increasingly interested in ES ...

1. Introduction 1.1. A broadly operational concept despite a lack of unity. A number of wide scale assessments have taken place to assess the status and trends of the world's ecosystem services - including the Millennium Ecosystem Assessment (), The Economics of Ecosystems and Biodiversity (), and the assessments of the Intergovernmental Science-Policy Platform on Biodiversity and ...

Navigating pluralism: Understanding perceptions of the ...

Conservation biology is the management of nature and of Earth's biodiversity with the aim of protecting species, their habitats, and ecosystems from excessive rates of extinction and the erosion of biotic interactions. It is an interdisciplinary subject drawing on natural and social sciences, and the practice of natural resource management.: 478 The conservation ethic is based on the findings ...

Conservation biology - Wikipedia

Life History. Atlantic herring (*Clupea harengus*) are oceanic, plankton-feeding fish that occur in large schools and inhabit coastal and continental shelf waters from Labrador to Virginia. Juveniles (called sardines) undergo seasonal inshore-offshore migrations. Sardines are abundant in shallow, inshore waters during the warmer months of the year.

species - Atlantic States Marine Fisheries Commission

It focuses on the dynamic human-plant interrelations and impacts, the role of plants in the formation and maintenance of the existential basis, social relations, cultural values and symbols, and vice versa the role of man, their cultural and economic orientations and transformation practices in the plant world. The idea for this conference grew out of the research work of a team from the ...
