Biomes of the World - The Earth has many different environments, varying in temperature, moisture, light, and many other factors. Each of these habitats has distinct life forms living in it. Build a Fish - Build a Fish by choosing a body, mouth, and color/pattern, and then release it into the reef! In the process you will learn about adaptations that help the fish survive in their environment.

Science Standards to use in 4th Grade classrooms

Young Earth creationists have claimed that their view has its earliest roots in ancient Judaism, citing, for example, the commentary on Genesis by Ibn Ezra (c. 1089–1164). Shai Cherry of Vanderbilt University notes that modern Jewish theologians have generally rejected such literal interpretations of the written text, and that even Jewish commentators who oppose some aspects of science ...

The most basic concept of all: convection currents!! I've seen many ways to introduce this concept. One uses Baby Food Jars. Fill one baby food jar to the brim with very hot, red-dyed water. Fill another baby food jar with very cold, blue-dyed water. Cover the red jar with an index card, turn it over and place over the blue jar.

Synopsis: Answers creation questions from both believers and skeptics. Summary: Hidden Treasures in the Book of Job by Dr. Hugh Ross is a great addition to the Bible teaching that is missing from most Christian's Bible study. Although seldom read by Christians, the book of Job offers answers to many questions about the creation and how God designed the universe and prepared the earth for humanity.

Parents need to know that Bill Nye: Science Guy is a documentary about the star of the beloved 1990s kids' show Bill Nye the Science Guy and his attempts to "leave the world better than he found it" after the show has run its course. The movie isn't specifically aimed at kids, but there's very little iffy content. Aside from some self-reflection that could be a little bit boring for younger ...
