An alloy is a mixture of chemical elements, which forms an impure substance (admixture) that retains the characteristics of a metal. An alloy is distinct from an impure metal in that, with an alloy, the added elements are well controlled to produce desirable properties, while impure metals such as wrought iron are less controlled, but are often considered useful.

Irreducible complexity (IC) involves the idea that certain biological systems cannot evolve by successive small modifications to pre-existing functional systems through natural selection. Irreducible complexity has become central to the creationist concept of intelligent design, but the scientific community, which regards intelligent design as pseudoscience, rejects the concept of irreducible ...

Salamanders Pre-Heresy Chapter Colour Scheme. In the great war of the Horus Heresy, many deeds

of infamy and valour were writ upon the bloody stars, and at the centre of this maelstrom lay the Salamanders Legion; betrayed, struck down, laid to waste and yet resolute against the foe. There are few Legions who have paid such a high price for their loyalty and honour as the Salamanders.
