Peak oil is the point in time when the maximum rate of global petroleum production is reached, after which the rate of production enters its terminal decline. If global consumption is not mitigated before the peak, an energy crisis may develop because the availability of conventional oil will drop and prices will rise, perhaps dramatically.

Trajan was most conspicuous for his justice, for his bravery, and for the simplicity of his habits. He
was strong in body, being in his forty-second year when he began to rule, so that in every
enterprise he toiled almost as much as the others; and his mental powers were at their highest, so
that he had neither the recklessness of youth nor the sluggishness of old age.
