Earth And Its Peoples Multiple

Earth is the third planet from the Sun, and the only astronomical object known to harbor life. According to radiometric dating and other sources of evidence, Earth formed over 4.5 billion years ago. Earth's gravity interacts with other objects in space, especially the Sun and the Moon, Earth's only natural satellite. Earth orbits around the Sun in 365.26 days, a period known as an Earth year.

Earth - Wikipedia

The Hollow Earth is a historical concept proposing that the planet Earth is entirely hollow or contains a substantial interior space. Notably suggested by Edmond Halley in the late 17th century, the notion was tentatively disproven by Pierre Bouguer in 1740, and definitively by Charles Hutton (1778).. It was still occasionally defended in the early-to-mid 19th century, notably by John Cleves ...

Hollow Earth - Wikipedia

We have pointed out many times in the preceding pages that in underdeveloped regions the political leader is forever calling on his people to fight: to fight against colonialism, to fight against poverty and underdevelopment, and to fight against sterile traditions.

The Baiga have been the forest-dwelling aboriginals from central India who claim to be harbingers of the human race and history in India, as it emanated from the conjugation of the Nanga (nude) Baiga as the Indian Adam and the Nangi (nude) Baigin (female Baiga), as the Indian Eve, who were the rightful progenitors of Indians.

Indigenous Peoples of the World — The Baiga

Peak oil is the point in time when the maximum rate of global petroleum production is reached, after which the rate of production enters its terminal decline. If global consumption is not mitigated before the peak, an energy crisis may develop because the availability of conventional oil will drop and prices will rise, perhaps dramatically.

Earth Day 2019: Earth Matters - CBS News

Human impacts prior to the Industrial Revolution are not well constrained. We investigate whether the decline in global atmospheric CO₂ concentration by 7–10 ppm in the late 1500s and early 1600s which globally lowered surface air temperatures by 0.15 °C, were generated by natural forcing or were a result of the large-scale depopulation of the Americas after European arrival, subsequent ...
