Evidence of common descent of living organisms has been discovered by scientists researching in a variety of disciplines over many decades, demonstrating that all life on Earth comes from a single ancestor. This forms an important part of the evidence on which evolutionary theory rests, demonstrates that evolution does occur, and illustrates the processes that created Earth's biodiversity.

Women and the New Testament Church . By COGwriter . While some have suggested that the New Testament writers were unkind to women, the simple fact is that for that time in history the New Testament situations involving women tended to elevate them to a higher level than the Jewish and non-Jewish societies of that time did.
