Research and Development Branch, Bureau of Meteorology. Abstract: The climate system integrates internally and externally induced variability at various time scales as a result of interactions between the ocean and atmosphere. The influence of external forcing on the climate system and with it the structural changes of climate variability, in particular on seasonal and longer time-scales, is ...

Von Braun Astronomical Society

Experimental and computational approaches to estimate solubility and permeability in discovery and development settings are described. In the discovery setting 'the rule of 5' predicts that poor absorption or permeation is more likely when there are more than 5 H bond donors, 10 H bond acceptors, the molecular weight (MWT) is greater than 500 and the calculated Log P (CLogP) is greater ...
