Emperors of the Sangoku,, the "Three Kingdoms," of India, China, & Japan. India and China are the sources of the greatest civilizations in Eastern and Southern Asia. Their rulers saw themselves as universal monarchs, thereby matching the pretensions of the Roman Emperors in the West. The only drawbacks to their historical priority were that India suffered a setback, when the Indus Valley ...

Computer science is the study of processes that interact with data and that can be represented as data in the form of programs. It enables the use of algorithms to manipulate, store, and communicate digital information. A computer scientist studies the theory of computation and the practice of designing software systems.. Its fields can be divided into theoretical and practical disciplines.

Computer science - Wikipedia

Fostering student inquiry of climate science with real-time data. The activities in this collection are based on the principle that real-time environmental data is a valuable tool for providing students with opportunities for self-directed exploration of the natural world.
