Part 2 (Extracting DNA Experiment) While students read, you can set up for the experiment How to Extract DNA from Anything Living. As mentioned in the Planning Ahead section, you can provide copies of this experiment to your students or have them go to the website and follow the experiment online.

Extracting DNA - Science NetLinks

Why use strawberries to test your DNA extraction kit? Because strawberry cells each have eight copies of the genome in every cell! When an organism has eight copies, called an octoploid, it has a lot more DNA per cell than an organism that only has one copy. Using DNA from strawberries will help you have a successful DNA preparation so you can purify a lot of DNA.
