Young parents and workaholics are very familiar with the effects of sleep deprivation, and almost everyone is agreed – it’s not the most pleasant place to be! Anyone who has ever tried to be, or had to be, awake continuously for several days and nights will know how a stretch of busy time without a nap reduces us to clumsy, incoherent creatures in a daze.

### **G2C Online - DNA Learning Center**

This film explores the major fossil finds from Africa that provide insights about the evolution of humans from other primates. Like any species, humans have an evolutionary history involving divergence from other animal groups. Paleontologists try to reconstruct this evolutionary history using the ...
