- [Instructor] Excel's IF function is a powerful tool. It allows us to come up with different answers based on the test of a formula or comparing two cells with a value, lots of different options there. In this workbook here we want to use that in column I to come up with a Bonus. Now a common question I hear frequently is can we use the IF function to apply a format?

Use conditional formatting to overcome formatting ...

- [Instructor] You may have heard the term heat map. It's described on this worksheet as a graphical representation of data where the individual values contained in the matrix are represented as colors. We've got two different worksheets here. The first one has to do with monthly payments and these amounts could be easily readjusted to reflect higher numbers or possibly used be for examples ...
