Bioman Biology: The Fun Place to Learn Biology!

In May 2004, agents from the Federal Bureau of Investigation showed up at Brandon Mayfield's law office and arrested him in connection with the March 2004 bombing of a train station in Madrid, Spain. The Oregon lawyer was a suspect because several experts had matched one of his fingerprints to a print found near the scene of the terrorist attack.

The evolution of plants has resulted in a wide range of complexity, from the earliest algal mats, through multicellular marine and freshwater green algae, terrestrial bryophytes, lycopods and ferns, to the complex gymnosperms and angiosperms of today. While many of the earliest groups continue to thrive, as exemplified by red and green algae in marine environments, more recently derived groups ...

Abiogenesis, or informally the origin of life, is the natural process by which life has arisen from non-living matter, such as simple organic compounds. While the details of this process are still unknown, the prevailing scientific hypothesis is that the transition from non-living to living entities was not a single event, but a gradual process of increasing complexity that involved molecular ...

There are certain things I test with every patient and others that depend on the specific needs of the patient. Find out what lab tests I prefer and what they tell me about your health. I'm going to go into a lot more detail on this sort of thing in the clinician training program that I've been talking about, and it's coming up hopefully next year.

RHR: Which Lab Tests are Essential? - Chris Kresser

The dose for the treatment of pharyngitis caused by *Streptococcus pyogenes* is an exception: in the treatment of pharyngitis caused by *Streptococcus pyogenes* Azithromycin has proved to be effective when it is administered to children as a single dose of 10 mg/kg or 20 mg/kg for 3 days with a maximum daily dose of 500 mg. At these two doses a comparable clinical effect was observed, even if the ...

Obesity. Obesity is the most common nutritional disease in dogs and can lead to a range of illnesses and diseases. Cavalier King Charles spaniels are pre-disposed to obesity, according to evidence garnered in a 1986 veterinary research study of dogs in the United Kingdom and confirmed more recently in a 2007 report, a 2010 report, and a 2013 presentation, among several others.
