In many cases, situation based interview questions involve problem-solving and handling difficult issues and circumstances in the workplace. You can share some details about how you anticipate you would respond to the situation, but the best answers to situational interview questions provide concrete examples of how you handled a similar situation on the job.

### **Situational Interview Questions and Tips for Answering**

The primary difference between concrete and cement is that concrete is a composite material made of water, aggregate, and cement. Cement is a very fine powder made of limestone and other minerals, which absorbs water and acts as a binder to hold the concrete together. While cement is a construction material in its own right, concrete cannot be made without cement.
