1. B. Physician work, practice expense, and professional ...

This question is a little easier. We do it the same way as the first step of the previous problem and then we stop. To find out how many moles of salt are contained in 300. ml of a 0.40 M NaCl solution, we start with the volume in liters (0.300 L) and multiply it by the number of moles per liter of solution, which is 0.40 moles over 1.00 L.

The SPF number on a sunscreen label stands for Sun Protection Factor. This means if the SPF is 30, this means you can stay in the sun 30 times longer than you would be able to without wearing ...

What does SPF 30 mean - answers.com

I need a cross-platform library/algorithm that will convert between 32-bit and 16-bit floating point numbers. I don't need to perform math with the 16-bit numbers; I just need to decrease the size of the 32-bit floats so they can be sent over the network.

32-bit to 16-bit Floating Point Conversion - Stack Overflow

The levels of a factor are stored as character data type anyway (attributes(f)), so I don't think there is anything wrong with as.numeric(paste(f)). Perhaps it would be better to think why (in the specific context) you are getting a factor in the first place, and try to stop that.

r - How to convert a factor to integer\numeric without ...

Our official online practice tests are the best practice you can get with fast results. The scored practice test is timed and scored just like the real PTE Academic test, so you get the best sense of how you will need to perform on test day.
