Charles Darwin is best known for his work as a naturalist, developing a theory of evolution to explain biological change.

### **Charles Darwin - Theories, Quotes & Facts - Biography**

Darwin and Natural Selection. Most educated people in Europe and the Americas during the 19th century had their first full exposure to the concept of evolution through the writings of Charles Darwin. Clearly, he did not invent the idea. That happened long before he was born. However, he carried out the necessary research to conclusively document that evolution has occurred and then made the ...

### **Early Theories of Evolution: Darwin and Natural Selection**

Charles Darwin's theory of evolution by natural selection is the foundation upon which modern evolutionary theory is built. The theory was outlined in Darwin's seminal work On the Origin of Species, published in 1859. Although Victorian England (and the rest of the world) was slow to embrace natural selection as the mechanism that drives evolution, the concept of evolution itself gained ...
