objects to identify good conductors of electricity, poor conductors of electricity, and insulators. Chapter 4: Conductors and Insulators 29 We will build a working circuit using a lamp as our load. Then we will test different objects to see if they are conductors or insulators. Some of the objects have been supplied in this KitBook. You will

Challenges 4 Conductors and Insulators Chapter 4 - KitBook

The division of materials into the categories of conductors and insulators is a somewhat artificial division. It is more appropriate to think of materials as being placed somewhere along a continuum. Those materials that are super conductive (known as superconductors) would be placed at one end and the least conductive materials (best insulators) ...
