Illinois criminal law classifies theft (synonymous with larceny) as an offense directed against property, which is defined as "anything of value." While property is often thought of as real estate, tangible possessions or money, the statutory definition of "property" also includes such things as written instruments, labor, services, electricity, pets, or anything else of value to the owner.

Directed attention fatigue (DAF) is a neuro-psychological phenomenon that results from overuse of the brain's inhibitory attention mechanisms, which handle incoming distractions while maintaining focus on a specific task. The greatest threat to a given focus of attention is competition from other stimuli that can cause a shift in focus.

Directed attention fatigue - Wikipedia

The gypsy moth (*Lymantria dispar*) was introduced in 1868 into the United States by Étienne Léopold Trouvelot, a French scientist living in Medford, Massachusetts. Because native silk-spinning caterpillars were susceptible to disease, Trouvelot imported the species in order to breed a more resistant hybrid species.

x Commonly reported incidence rates for endometrial cancer (EC) fail to take into account both the large number of hysterectomies performed each year and the dynamic change in hysterectomy rate over the past decade. Large racial differences in pre-menopausal hysterectomy rates between Black and White women in the US likely affect calculation of race-based risk.
