direct evidence is the observation of evolution as it occurs. We have discovered novel genes conferring an advantage in an environment in which the ancestral population lacked those genes entirely.

What is direct evidence of evolution - answers.com

5 Answers. , born free, airlock atheist. Directed mutations would be evidence of a higher power, or at least a centralized power. A mutation director would seem to be a supernatural force, a kind of god. On the other hand, the absence of directed mutations would suggest the absence of the intercession of such a power in the phenomenon of life.

Is there evidence for directed mutations in evolution? - Quora

The direct evidence for common descent and evolution are enabling evidence. They demonstrate that common descent is possible and maybe even likely. However, they don't conclusively show that common descent occurred because no one was there to observe it over such a long period of time (the same problem that exists when there is no direct ...
