Cardiovascular system: The circulatory system: The circulatory system is made up of the vessels and the muscles that help and control the flow of the blood around the body. This process is called circulation. The main parts of the system are the heart, arteries, capillaries and veins. As blood begins to circulate, it leaves the heart from the left ventricle and goes into the aorta.

Cayenne Capsules Versus Cayenne Tea. by Glenn Reschke. Probably the most common question I get about cayenne pepper is this: "What's the difference between drinking cayenne pepper powder versus taking it in capsule form? Won't I get the same cayenne pepper benefits by taking it in capsule form?" These are good questions, and certainly understandable.

Gastroesophageal reflux disease, better known by its catchy acronym GERD, is a growing health epidemic in the United States and worldwide. GERD costs U.S. taxpayers billions of dollars each year and accounts for hundreds of deaths. 1 Historically, the very first “blockbuster” drug was Tagamet (cimetidine), developed in the 1960s by researchers looking for a “solution” for heartburn.
