Core Connections Geometry is the second course in a five-year sequence of college preparatory mathematics courses that starts with Algebra I and continues through Calculus. It aims to formalize and extend the geometry that students have learned in previous courses. It does this by focusing on establishing triangle congruence criteria using rigid motions and formal constructions and building a ...

### **Selected Answers for Core Connections Algebra**

Geometry, and getting CPM geometry homework help, is somewhat more complicated than simply using it for algebra, as geometry involves complex forms as well as formulae. The CPM program is of course invaluable, but anybody who uses it needs to do some forward planning if they want to be

able to produce coherent results.
