Create Windows 8 Answer File

In the same vein as Quickly create a large file on a Linux system, I'd like to quickly create a large file on a Windows system.By large I'm thinking 5 GB. The content doesn't matter. A built-in command or short batch file would be preferable, but I'll accept an application if there are no other easy ways.

Quickly create large file on a Windows system - Stack Overflow

Pin to Start (Any File) Windows 10 Pro - Microsoft Community

As so many other things in computing, Windows Links seem more complicated to understand and use than what they really are in reality. This tutorial will tell you how to create and use links using MKLINK to redirect system queries made to a local or network storage location to another location. In this tutorial we will concentrate on the most important link type, a Directory Junction.

MKLINK – Create and Use Links in Windows - Seven Forums

Original Title: Accounts in Windows 10 I upgraded from Window 8 to Windows 10. I was signing in with a new Microsoft account which I created at the beginning. I realized that it might be a good idea to create an admin account and did so.
